The New Gas Plant.

Work is going on with rapidity at the gas house where the new water gas plant is being put in. The work is being done by the United Gas Improvement company and is supervised by H. E. Morris of the company. A new part was added to the gas house and it were placed new boilers, an engine and other apparatus for the making of the gas. The gas is made of fine crude oil or naphtha and condensed steam. There are three shells in a regular row. In the first the water is heated to steam, in the second the gases of the water or illuminants are separated, and in the third they are combined with the oil gas. The gas then goes through a washer and scrubber in turn, thence through the old refiners, to a new relief tank. The new relief tank is twenty-eight feet in diameter and has a capacity of 6000 feet. It is of the latest improved pattern, made of steel instead of masonry and is put up by the company's workmen. The outside shell which is of steel is filled with water and the tank rises and sinks in it. Another large tank is to be built on the north side of the gas works fifteen feet in diameter and ten feet high, for the storage of oil. Its capacity is 12,000 gallons. The whole arrangement will supply about 100,000 feet of gas in twenty-four hours and the gas will be much brighter and made cheaper. The gas can be made with thirty candle illuminating power. The work will be finished about twentieth of this month.

Will Probably Lose His Eye.

Frank Carpenter, the four-year-old son of Mr. and Mrs. Frank Carpenter, was playing near his home Tuesday afternoon when he was attacked by a large Newfoundland dog, owned by Thomas Kerr. The animal knocked the boy down, bit one side of his face and struck his left eye with his paw. The boy has not been able to open the eye since as it is badly inflamed and it is probable that serious results will follow.

Superintendent Waters Resigns.

Superintendent Charles A. Adams of the Gas Light company has resigned his position and hercetar will apply himself exclusively to superintending the water works of the town. Mr. Waters has held the position for many years and was a skillful manager. President Daniel E. Upton of the company said this morning that the company had no man in mind to succeed Mr. Waters, but an appointment will be made within a month. It must be some person familiar with the making of the new gas. Superintendent Waters resignation has not yet been made public, and it will be considerable of a surprise to many residents.

By far the biggest improvement on Park street is the painting of the building on which Lacey's barber shop is situated. A large tank has been built twenty feet from the ground at the new mill and water for use in the work will be pumped into it and run to the various points thereof.

The barn on the land recently purchased by W. B. Plunkett and the Renfrew company has been torn down.

CALISAYA DRUNKARDS.

An Alcoholic Drink That Is Even Worse Than Pure Whisky.

"Calisaya drunkards are rapidly increasing in number," said a New York druggist. "Very few men who drink this insidious mixture know what it is made of, and consequently they drink it with a recklessness which is almost suicidal. There is a large number of men in New York who have drunk calisaya in its various forms for many years, and who, either from fear of its ultimate effect or from a desire for a change, resort to drinks the nature of the effects of which they knew nothing.

This drink, called calisaya, which is so extensively retailed in drug stores, really has very little calisaya in it. The base of the drink is alcohol and quinine.

When drunk in a rational manner, the mixture is a comparatively harmless tonic, but when indulged in to excess it is much more harmful than alcohol alone, as it combines the deleterious effects of an overdose of quinine as well.

The unfortunate victims of the calisaya habit ignorantly think that in calisaya they have found a drink which has the stimulating effects of whisky without any of its physical penalties, when the fact is that they are practically only adding the spur of quinine to their whisky, which is thinly disguised by calisaya. A man with a calisaya jug is sincerely to be pitied. He is just a little short of being a raving maniac. His ears ring like an anvil from the effects of the quinine, while his blood races through his veins like a mill race at the bidding of the alcohol."—Toledo Blade.

When He Took Whisky.

In a certain little Scottish town some time ago they held a temperance meeting. During the proceedings an old man who was not exactly celebrated for sobriety got up to address the audience. He said, after a few remarks upon the beauty and advantage of moderation, "My friends, there's just two occasions when I tak whisky." Undismayed by the "tums!" and "pahs!" which ensued, he continued, "Aye, I just tak whisky when I ha'e haggis for dinner, and tak whisky when I ha'e haggis." The rest of the speech was lost in the storm of applause that broke forth.—*Examiner*.

The barn on the land recently purchased by W. B. Plunkett and the Renfrew company has been torn down.

Miss Susie Harrington, daughter of Loomis Harrington of Renfrew, is dangerously ill of typhoid fever in conjunction with hemorrhage of the stomach. Her many friends grieve for the fact that her recovery is unlikely.

WEATHER FORECAST.

(Special Dispatch to the Transcript.)

TEN PER CENT RAISE.

Fall River Weavers Will Make a Demand Upon Manufacturers.

Refusal Will Be Promptly Followed by a Strike.

Operatives Inclined to Think That Their Demand Is a Just One.

FALL RIVER, Mass., Sept. 5.—The weavers association last night voted unanimously to demand an increase of 10 per cent in wages on and after Sept. 23. The weavers are of the opinion that an increase will not be granted, and as a majority favor going out, it is very probable that another labor difficulty will develop before the end of the month.

The demand will be sent in written form to the Manufacturers' association, also to the owner of the Iron Works mill. If an answer is received before the date mentioned a special meeting will be called to take action. If no answer is received, a meeting will be called at which the weavers will be called upon to decide the question of a strike or no strike.

There was some discussion regarding the amount to be asked, some members considering that 16% per cent should be demanded at once. This would bring the price of weaving 64x64 up to 21 cents a cut, instead of 18 cents, the amount now paid.

It was the almost unanimous opinion, however, that 10 was enough to ask for.

Under Present Conditions,

and it was not granted the amount requested might be granted. The demand will be mailed to the mill people today.

Weavers who were spoken to after the meeting did not appear to be very hopeful of receiving any concessions from the manufacturers, but they said they were willing to go on strike the 23d if this month if their demand was refused.

The unanimity with which the request was made leaves very little room for doubt as to the ultimate intentions of the operatives. They said the main reason they did not ask the full 16% per cent was because they appreciated the fact that cotton is high.

FIVE MEN DEAD.

A Sixth Narrowly Escaped the Same Fate in a Providence Gashouse.

PROVIDENCE, Sept. 5.—The police discovered that Thomas J. Wilson, who escaped from them after he had been arrested on suspicion of being a burglar, was John Ryan, alias John McCarthy, a notorious New York crook. He was sentenced to 2½ years in the state prison at New York in 1888, and to nine years in 1883.

May Not Be Tried Again.

PORTLAND, Me., Sept. 5.—The postponement till January of the new trial which the law court recently granted James Lewis, the condemned murderer of Byron G. Collier of Gorham, is generally regarded as an indication that the case will not again be tried. It was supposed, until the agreement of counsel yesterday, that the case would be fought out at the present term of the superior court.

Harford to Be Honored.

HARTFORD, Sept. 5.—Major Brainard yesterday received a letter from the Cleveland centennial committee announcing that Governor McKinley had consented to come to Hartford with the party, and it was probable that the other distinguished visitors would include Senators Sherman and Bruce, General Bushnell and ex-Governor Campbell. They will arrive Sept. 23.

the Master's Service.

BOSTON, Sept. 5.—A cablegram from Foo-Choo says that Miss Mabel Hartford, who barely escaped the fury of the recent mob at Ku-Cheng, sailed for America on Sept. 1. Miss Alice Todd and Miss Miranda Croucher, missionaries of the Methodist Episcopal church, will start for China Monday. Miss Todd is under appointment for Ku-Cheng.

Mysterious Robbery.

CAMBRIDGE, Mass., Sept. 5.—The Cambridge postoffice safe was robbed of \$100 in bills and silver, \$200 in stamps and four registered letters when the office was unguarded, and by someone who knew the combination of the safe. Interrogation of the inspectors has thus far failed to develop a single clue. Whom they suspect refuse to state.

PROVES TO BE An Old Offender.

PROVIDENCE, Sept. 5.—The police discovered that Thomas J. Wilson, who escaped from them after he had been arrested on suspicion of being a burglar, was John Ryan, alias John McCarthy, a notorious New York crook. He was sentenced to 2½ years in the state prison at New York in 1888, and to nine years in 1883.

Charles Not Forgotten.

BOSTON, Sept. 5.—The will of the late B. P. Cheney has been filed. The estate is estimated at \$9,000,000, and Secretary of State Oliver C. U. Codding and B. P. Cheney are named as executors under bonds of \$10,000,000 each. In the will bequests are made of \$30,500 to 29 public and charitable institutions in the city.

Fatal Carriage Riding.

DANBURY, Conn., Sept. 5.—A carriage in which Henry Ellsworth of Ashpetwick and Mrs. Phoebe Tremont of Pawling, N. Y., were driving, was struck by a train at Boardman's bridge, near New Milford yesterday, and Ellsworth was killed. Mrs. Tremont sustained severe injuries, and is still unconscious at the hospital.

A Prayer Sunday.

BURLINGTON, Vt., Sept. 5.—State President E. G. Osgood of the Y. P. S. C. E. of Vermont has issued a circular asking all societies in the state to unite in observing next Sunday as prayer Sunday, for blessing upon the annual state convention, which will meet here next week.

Hail for the Grand Jury.

OLD ORCHARD, Me., Sept. 5.—Mrs. Frances Beard, charged with assault with intent to kill her daughter, Miss Josie, two weeks ago, was bound over under \$1000 for the grand jury, Sept. 17. She was sent to the Augusta insane asylum until her case comes up.

Will Fight It Out.

BOSTON, Sept. 5.—The steamfitters' strike remains unsettled, both sides claiming to have gained something since it began. The master steamfitters say that they will never give in. The union, on the other hand, claims that the strikers will gain their demand.

Big Wharf Fire.

BOSTON, Sept. 5.—Fire on the Grand Junction wharf at East Boston caused a damage of about \$300,000, \$200,000 of which will fall upon the Boston and Albany Railroad company.

Winder's Wandering.

PORTLAND, Me., Sept. 5.—Tom Winder, the Warsaw (Ind.) bicyclist and newspaper man, who is riding across the country on a wager, arrived here last night.

New England Briefs.

New Hampshire pharmacists are in session at Concord.

Frank McEachran is said to have made an unsuccessful attempt to kill his wife at Boston.

Mrs. Emilie Lord, who fell over a telephon cable at Portland, Me., died of her injuries.

Brooklyn (N.Y.) schoolmen refuse to allow bicycle road races in the streets of that town.

The Wiggossett and Quebec railroad cleared \$100 above expenses during the month of August.

David J. Waugh, 12 years old, was drowned while bathing in the Merrimac river at Lowell, Mass.

A. H. Bowen, 48 years old, of Pawtucket, R. I., committed suicide by shooting. Bowen had been sick for some time.

Bartholemew J. Doyle and James D. Graver have signed articles for a dry race in their pockets from the pension office rejecting their claims on the ground that they are not dissatisfied from earning a living by manual labor.

A Remarkable Ceremony.

BOSTON, Sept. 5.—A remarkable event occurred in the Roslindale Unitarian church on South street last evening, when Richard W. Boynton and his wife, Mrs. Harriet B. Boynton, were ordained as ministers in the Unitarian faith, and of the Unitarian society of Roslindale. Mrs. Boynton is the second woman in this city who has become a minister. The fact, also, that husband and wife, of only a month's wedlock, should both be ordained at the same time, added interest to the event.

Does Not Want a Divorce.

WESTFIELD, Mass., Sept. 5.—W. F. Gill of New York, who recently instituted divorce proceedings against his wife, Mrs. E. O. Gill, a sister of Mrs. Cornelius Vanderbilt, has given Lawyer Knell of this town a signed statement, withdrawing the charge of gross intoxication from his wife in chloral, and expressing a desire to withdraw any and all proceedings in suit. It is probable that the case will never come to trial.

On Murder Bent.

LAWRENCE, Mass., Sept. 5.—James Maddock, 50 years of age, went to William Chadwick's house, last evening, armed with two .32-caliber revolvers. As he entered the door, he drew them, and, pointing one of the weapons, Chadwick struck down Maddock's hand and the ball entered the floor at his feet. The hand-to-hand struggle then ensued. With the assistance of Mrs. Chadwick and Maddock's daughter, who, with her mother, was residing at Chadwick's house, Maddock was finally disarmed. It is thought Maddock went to Chadwick's house for the purpose of murdering his wife and daughter. His wife secured a divorce from him last May and he has since been paying alimony.

Major Josiah Benton, paymaster of the United States army from 1863 to 1865, died from a stroke of apoplexy at his residence at Copake, N. Y.

The war department was informed of the death in Paris, on Aug. 22, of Lieutenant Colonel Edmund Butler, U. S. A., retired, late of the Seventeenth infantry.

Enjoying Themselves.

BERLIN, Sept. 5.—The German-American veterans of the war of 1870-71 yesterday placed wreaths upon the sarcophagi of Emperor William I and of Emperor Frederick III. They also visited other places of interest and went on an excursion up to Wansee.

Scarlet Fever Prevalent.

ANSONIA, Conn., Sept. 5.—An epidemic of scarlet fever is prevalent here, scores of cases having been reported to the health authorities. The death list has reached 16 in number, and several cases reported are critical. A strict quarantine has been established.

Steam Heating line.

Sole agents for "All Right" and "Volunteer" Steam and Hot Water Heaters.

GAINED ROYAL FAVOR.

Chinese Now Appreciate the Value of American Education.

Advice of Hong Yung Wing Is Eagerly Sought.

Specimen of a Proclamation by an Official Who Believes in Justice.

NEW YORK, Sept. 5.—A letter from Rev. T. W. Houston, dated Nanking, July 12, was received yesterday by Robert E. Speer, secretary of the Board of Foreign Missions in the Presbyterian church in the United States. The letter says:

I had an interview last week with Hong Yung Wing. He will be remembered as the man in whose charge 120 Chinese boys were taken to New England in 1873 to attend school. Owing to misrepresentations they were recalled, in 1881, before their education was completed, but after they had imbibed very many advanced ideas, which caused them to be severely disesteemed by Chinese officialdom.

But in the late war they were found to be the only officers of the navy who could be depended on to fight. They were plucky, capable and loyal. This has advanced them to favor with those officials who are inclined to be progressive, and our viceroy, Jang Chih Tung, cabled to Yung Wing, who is an American citizen, and has been living at Hartford for 13 years, to come out.

The object is to consult in regard to an educational system for China. The northern great viceroy, Li Hung Chang, has also invited him to Tien-Tsin for the same purpose, and the secretary of the board of revenue wants him to go to Pekin on the same business. These are China's most powerful men, and while all that we would like to see in an educational plan may not be brought about, we may certainly hope to see some significant results.

In Szechuan, 200 miles west, wholesale destruction of mission property has taken place; here we are sought after by the officials. Three weeks ago our district magistrate invited all the men of our mission community to dinner, treating them with all honor, and now comes, uninvited, one of the best proclamations which has been issued in China since the eve of modern missions. Translated, it is as follows:

Unusual Display of Friendship.

Given by Li, by grace of the emperor, commissioner of salt revenue, expectant intendant of Ningpo, and president of Ning (Ningpo) circuit, showing advanced training in office and having one brevet rank, having 13 times honorable mention in official records.

For the purpose of publicly and strictly charging the people concerning foreigners, who have in whatever points of the interior established chapels, schools or like places—for a long time have been permitted by the emperor's commands. Now, having examined his due title, every person belonging to that province, we find that there have been established free schools where the poor children of China may receive instruction; hospitals where Chinamen may freely receive healing; that the missionaries all are really good; not only do they not take the people's possessions, but they do not seem to desire men's praise.

Already the prefect, with the magistrates of the provincial capital, have personally visited the foreign embassies and commanded the magistrates of outside districts to personally visit each out-station of the churches, and talk with the missionaries. They have personally observed the hospitals, schoolhouses, etc. They are for good established with the sincere desire to save men. Although Chinamen are pleased to do good, there are none who exceed these missionaries.

We think it right, therefore, to put forth this proclamation, plainly charging soldiers and all people, to know that foreigners here renting or otherwise settling up hills do so to save and help the poor, and that there is not the least underhandness. Let it not be that you, on the contrary, wrongly invent false reports and even commit crimes and misdeemors. If there should be shameless village who, thinking to profit for wealth, (i.e., take by force,) their grain and money, and through a faked accusation (the missionaries) of offenses, they will be first thoroughly examined and strictly dealt with. They will be punished to the fullest measure, certainly not leniently. You have been informed and warned. Do not disregard this proclamation. Given on the 12th of the intercalary 50th month, 21st year of Kuang-Hu (July 4, 1895).

ANSON'S . . . FINISHED.

Have Not Won a Game Since They Last Left the Windy City.

BOSTON, Sept. 4.—J. Jimmy Sullivan held up Boston's end in the box. He pitched a creditable game. The home team, from almost the very outset, butted like wild bulls. The Chicago men, for three innings, led the 2000 enthusiasts to believe they were going to win. Since the team left Chicago, they have not won a game, and Anson has considerable money wagered in the various cities that he will beat out Boston, New York and Pittsburgh, defeat came rather hard to him.
